

Yamaha Factory Automation department

Expands with Introduction of YK400XE Model

- The growing Yamaha FA department, based in our Marietta, GA, facility along with the IM (Intelligent Machinery) Group, is pleased to announce the expansion of its offerings in the U.S. with the introduction of the new low-cost and powerful **YK400XE model SCARA** ("Selective Compliance Articulated Robot Arm"), built for improved efficiency and reliability in many manufacturing production applications.

To learn more about the new YK400XE, please go here:

- Yamaha has been producing and marketing industrial robotics machinery for more than 30 years and just recently began business operations in the U.S.

Yamaha also offers a wide range of robotic products, including linear actuators; Cartesian, SCARA, pick and place, and articulated robots; and even conveyor systems, all for hi-tech manufacturing usage.
