

MODERNIZE YOUR MANUFACTURING WHILE MINIMIZING YOUR COSTS

RELIABLE, COST-EFFECTIVE MACHINES THAT MEET THE DEMANDS OF U.S. PRODUCTION!

Why pay more for machines with limited capabilities when you can buy a line that meets your needs of today and scales for future growth?

- As Electronics Manufacturers look to start or move production capacity to the USA, one major concern is the initial capital investment.

To meet this growing demand for cost effective solutions, Yamaha has assembled several low-cost solutions to kick start your efforts.

These machines maintain the same level of accuracy and reliability of our flagship models, but are priced aggressively for those with limited budgets.

Low-Cost Complete Line – Rated at 52,000 cph, including Screen Printer, Mounter with 50 feeders, Oven and Conveyors – starting at \$298,300

Low Cost / Higher Volume Line – Rated at 104,000 cph, including Screen Printer, 2 Mounters with 50 feeders, Oven, and Conveyors – starting at \$454,200
